Education

Lovely Professional University

Bachelor of Science in Computer Science

Aug, 2022 – Present

Jalandhar, Punjab

Relevant Coursework

- Data Structures
- Algorithms Analysis
- Android Development
- Web Development
- Software Methodology
- Database Management
- Internet Technology
- Computer Architecture

Experience

EDVEDHA, Inc

Jan 2024 – March 2024

Front End Developer Intern

Remote

- Gained hands-on experience in back-end development using Node.js and Express, implementing server-side logic and database interactions.
- Worked with MongoDB and SQL for efficient data management, improving application performance and scalability.
- Built and consumed RESTful APIs to ensure seamless data exchange between front-end and back-end components.
- Collaborated with the development team using Git for version control, following best practices for code management and teamwork.

Projects

Hotel Website (Shree Ji Palace) | React, JavaScript, CSS

December 2024

- Developed a fully responsive and dynamic hotel website for "Hotel Shree Ji Palace" using React.
- Showcases essential hotel information, including amenities, rooms, services, and customer testimonials, with an intuitive UI/UX.
- Implemented an interactive image gallery, enabling users to browse high-quality visuals of rooms and facilities.
- Designed a structured layout with React components to ensure modularity and ease of maintenance.

- **GitHub:** github.com/arvind-04/HotelShreeJiPalace

Quiz App | Node.js, Express.js, MongoDB

May 2024

- Built a MERN stack-based quiz platform that allows users to participate in interactive quizzes on various topics.
- Implemented a backend with Node.js and Express.js, ensuring secure API endpoints for fetching, submitting, and scoring quizzes.
- Utilized MongoDB for efficient storage and retrieval of quiz questions and user responses, enabling real-time score tracking.
- **GitHub:** github.com/arvind-04/Quiz-APP

Smart City Website | HTML, CSS, JavaScript

January 2024

- Designed an informational website dedicated to spreading awareness about the Smart City Mission and its benefits.
- Curated detailed content on urban planning, sustainable infrastructure for smart cities.
- Built an engaging UI with HTML, CSS, and JavaScript, focusing on clear navigation and user engagement.
- **Live Link:** smartcity-1.netlify.app
- **GitHub:** github.com/arvind-04/Smart-City-Website

Little Ones Website | HTML, CSS, JavaScript

November 2023

- Created an e-commerce website for a children's product store, featuring a catalog of child care items with sorting, searching, and cart features.
- Developed a secure user login system with authentication and authorization.
- Integrated payment gateways for seamless transactions, providing users with a convenient and safe shopping experience.
- **GitHub:** github.com/arvind-04/LittleOnes.github.io

Technical Skills

Languages: Python, Java, C, HTML/CSS, JavaScript, SQL, ReactJs, ExpressJs, NodeJs, MongoDB, Kotlin, C++, Php
Developer Tools: VS Code, Eclipse, Apache NetBeans, Android Studio
